1. Introduction

Microsoft has enforced security requirements for all organizations to enforce **Multi-Factor Authentication (MFA)** for all users, including service accounts.

All users must register for **Self-Service Password Reset (SSPR)** and **Multi-Factor Authentication (MFA)** to continue accessing organizational services.

Self-Service Password Reset (SSPR) is a feature of **Azure Active Directory** that allows employees and students to reset their passwords without contacting the IT department.

Before using this service, users must first complete the registration process by selecting one or more verification methods.

2. Self-Service Password Reset (SSPR)

SSPR allows users to:

- Reset their account password
- Unlock their account if it becomes locked

To use SSPR services, users must first register for it.

At least **one verification method** is required to reset or unlock an account. However, it is strongly recommended to register **two verification methods** in case one method is unavailable.

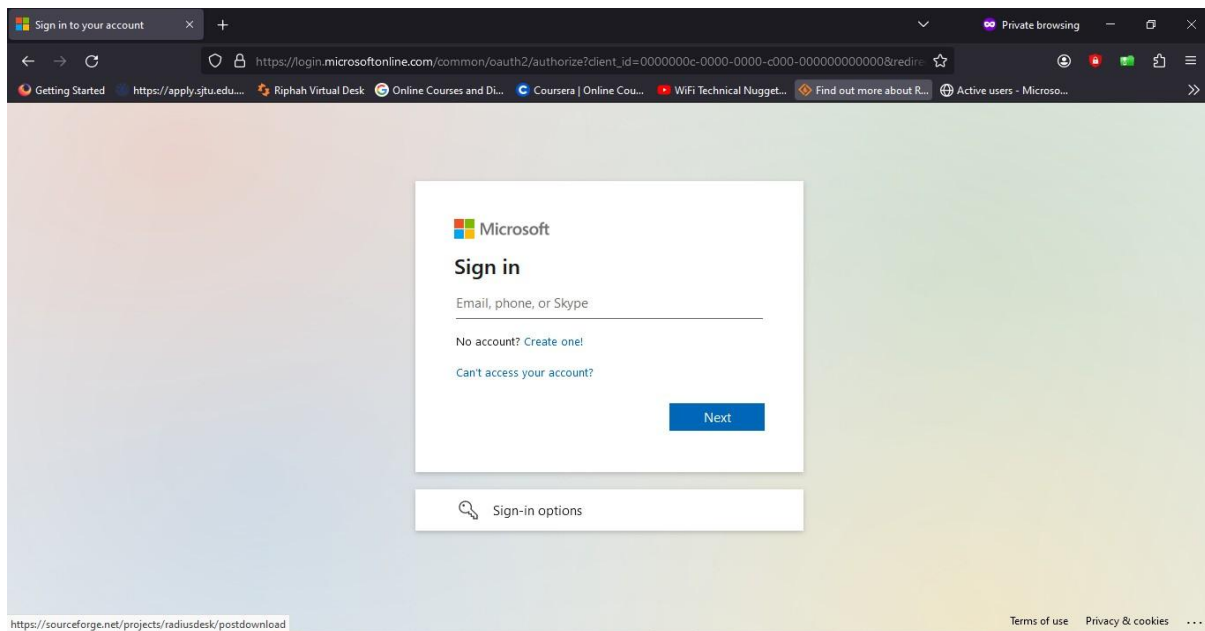

Users with administrative or special permission may require **two verification methods** for security purposes.

2.1 Registering for SSPR

Step 1 – Open the Registration Portal

Open the following link in your browser:

<https://aka.ms/ssprsetup>

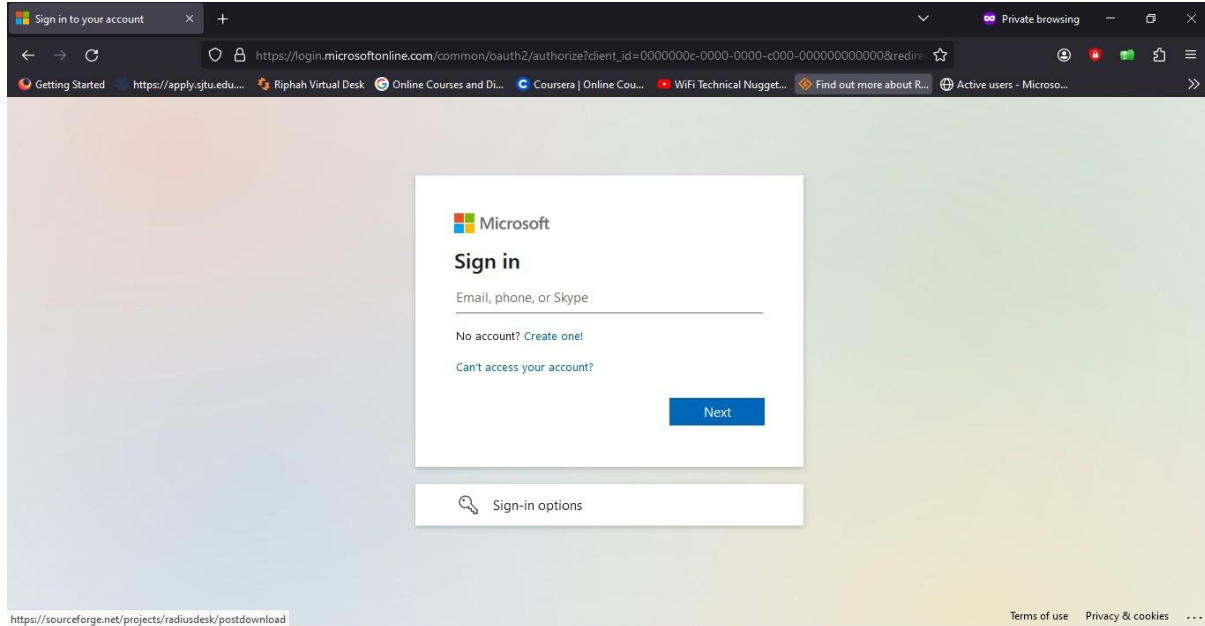

Step 2 – Sign in to Your Account

A login page will appear.

Enter your username in the following format:

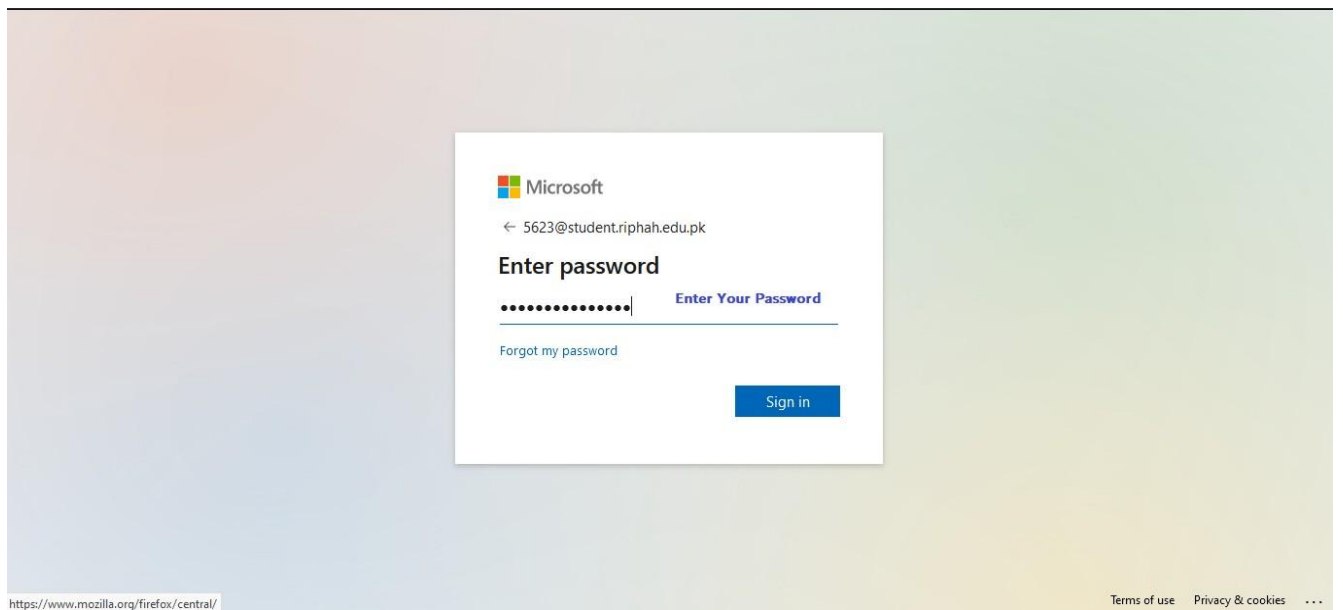

username@student.riphah.edu.pk

Click **Next**.

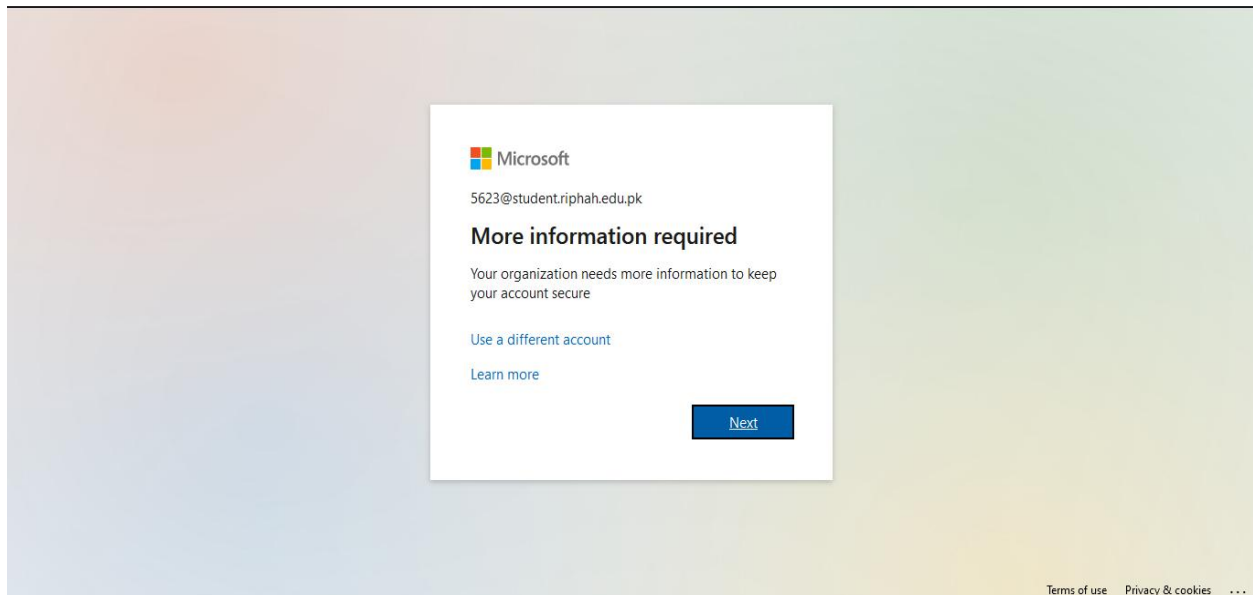

Step 3 – Enter Your Password

Enter your account password and click **Sign In**.

Step 4 – Information Page

An information page will appear explaining the setup process.
Click **Next** to continue.

Step 5 – Select Verification Method

You will see options to configure:

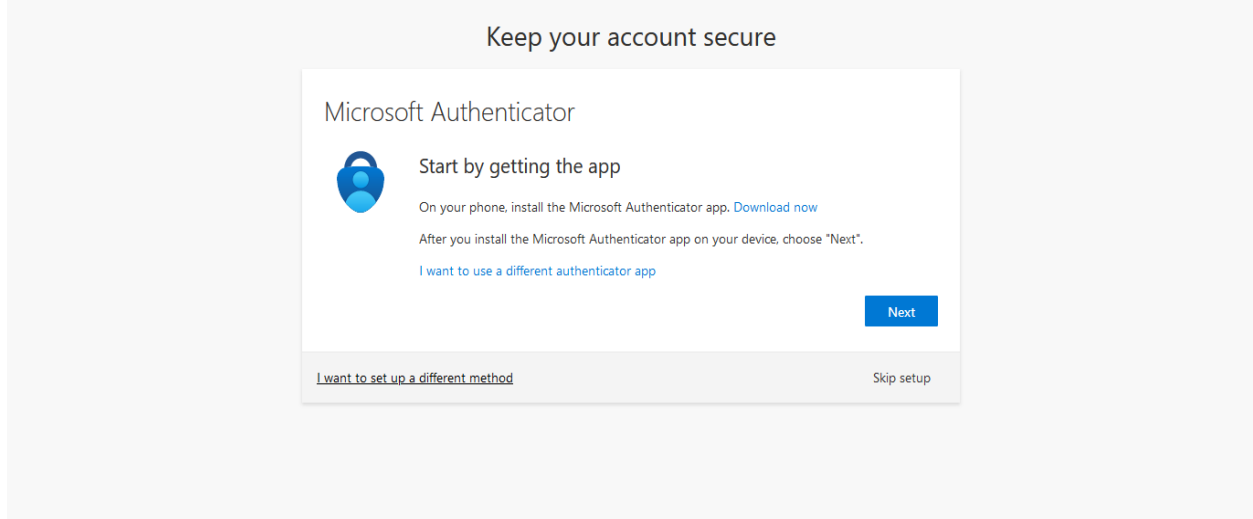

- Phone number
- Email address
- Authenticator app

To set up your phone number, click:

“I want to set up a different method.”

Riphah International University

?

Step 6 – Choose Phone Method

Select **Phone** from the list and click **Confirm**.

Step 7 – Enter Phone Number

Select your country:

Country: Pakistan

Enter your mobile number.

Choose one of the following verification options:

- **Text me a code** (SMS verification)
- **Call me** (Phone call verification)

Click **Next**.

If you select **Call me**, you will receive a call from Microsoft and will be asked to press # to verify.
